

THE SPRAY RAY

Introducing the revolutionary Spray-Ray - your ultimate solution to uninterrupted window cleaning! Say goodbye to the constant interruptions caused by your washer getting too dry.

The Spray-Ray is a cutting-edge spray system that effortlessly attaches to your Excelerator 2.0 handle or Gekko pad holder. Designed with your convenience in mind, it easily connects to a manual pump, which mounts onto your extension pole. And guess what? You can carry the spray bottle right on your belt, keeping everything within arm's reach! It comes with a generous 30 feet of high-quality tubing, allowing you to effortlessly clean windows up to the second floor.

The Spray-Ray is here to revolutionize your cleaning routine. Neatly packed into a hard cover carrying case. Bid farewell to those pesky interruptions and say hello to a seamless, efficient window cleaning experience.

Get ready to elevate your window cleaning game with the Spray-Ray - the future of hassle-free high-rise cleaning is finally here!
